Dear Members/CGC Members,

Subject: Seeking Expression of Interest for business delegation to Malaysia

Greetings of the Day!

We are pleased to announce that SEPC will be mounting a business delegation to Malaysia around fourth week of November.

This delegation aims at strengthening the bilateral trade ties between the India and Malaysia across the major services sectors covered under the recent Malaysian Prime Ministerial delegation to India and exploring new business opportunities in the region. The delegation will primarily focus on sectors such as IT/ITeS, digital technology, fintech, e-commerce, business and professional services and startups.

This delegation will provide an opportunity to the stakeholders for networking with international peers, exchange ideas, observe industrial best practices in Malaysia and explore potential business collaborations.

Therefore, we are seeking expression of interest from the Indian industries who are looking to enhance their market outreach in Malaysia. If interested, you may kindly register your participation through the following link: <https://forms.gle/8vRyKf4sda15QTya6>

The further details pertinent to the delegation will be floated in coming weeks. In case of any query, please feel free to reach out to Ms. Saumya Gupta, Deputy Director, SEPC at Saumya.gupta@servicesepec.org or +91-9354558465.

With regards,

Karan Rathore
Chairman
